BUZZARDS BAY SAIL AND POWER SQUADRON
presents

2022 MAY SEMINARS

BBSPS will present a series of *live, interactive, on line* seminars on a comprehensive range of boating topics designed to make you a more confident and secure boater.

JUST WHAT YOU NEED TO NAVIGATE THE CAPE WATERS

KNOWLEDGE IS CONFIDENCE

all seminars are presented on-line evenings 6:30 – 9:00PM

Date	Subject
May 2 & 9 Monday	Basic Coastal Navigation (in 2 parts)
May 3 Tuesday	New England / Cape Cod Weather
May 10 Tuesday	Trailing a Boat
May 16; 23 Monday	Boat Handling (in 2 parts)
May 24; 25 Tuesday/Wednesday	Boating & Navigating with Electronics (in 2 parts)
May 31 Tuesday	Nautical Rules of the Road & Ropes

*Join us for a fun an effective learning experience with no tests and no pressure
Where the instructors are live on line with you and available to answer all your questions*

Seminars
USPS member \$30 non USPS member \$40

PRE REGISTRATION IS REQUIRED

TO REGISTER: Send a completed registration form* along with a check made payable to “Buzzards Bay Sail & Power Squadron” to:
Richard Moore PO Box 1685 Sagamore Beach, MA 02562-1685
Email: chmbrrck@live.com Telephone: 508-888-8238

We will email you an on-line link just prior to the presentation.

presents

ON THE WATER TRAINING

- ***Do you fear docking your boat?***
- ***Do you think it is much easier to parallel park a car than dock a boat?***
- ***Do you have trouble leaving a dock with wind pushing you?***
- ***Is it a mystery why your boat behaves like it does?***

This 8-hour program is the perfect combination of introductory classroom training followed by hands-on on-water practice - with expert instructors.

You'll learn how a boat responds to your controls and external factors such as wind and current. Animation and video clips help you visualize maneuvers prior to doing them on the water.

It covers the use of lines, departing from a dock, operating in a fairway, pivoting, mooring, backing, docking, steering, slalom, holding course, running a range, and stopping quickly.

JUNE 6 **live, interactive, on line seminar 6:30 – 9:00 PM**
Monday **Boat Handling / Control / Limited Spaces Part 1 of 2**
JUNE **7; 8; 9; 13; 14; 15; 16 On Water Training**

AMERICA'S BOATING COURSE

America's Boating Course (ABC) is recognized as one of the very best ways to prepare yourself for boating.

ABC meets NASBLA certification requirements, is recognized by the U.S. Coast Guard, and **meets MA requirements for boat operation by 12-15 year-old boaters.**

ABC covers the basics of operating a boat safely, including rules of the road, aids to navigation, required equipment, and boat handling techniques.

Each class is a live, interactive, virtual presentation on 4 weekday evenings followed by a "drive in" in-person, proctored exam given the Sunday following the last class.

September	THURSDAYS	6:30PM – 9:00PM
	MAY	5; 12; 19; 26
	EXAM	SUNDAY MAY 29

ATTENDANCE ALL 4 DAYS PLUS THE EXAM IS REQUIRED

COST: \$65 per student

You will receive a copy of the USPS ABC book, a summary of MA boating laws, and a US Coast Guard safe boating guide prior to the class.

PRE REGISTRATION IS REQUIRED
A PRE COURSE ASSIGNMENT NEEDS TO BE COMPLETED
WE MUST MEET BEFORE THE CLASS TO DISTRIBUTE COURSE MATERIALS

The View

It's time to get the boat in the water. Boating season begins! The price of fuel is out of sight, but that is not the driving cost of boating, so enjoy your boat – the season is short, but boating is a great way to enjoy the summer.

I hear all the time how people are uncomfortable using their boats and their electronics. That is where we come in. We'll help with your boating needs so you can be more comfortable out on the water.

Have some questions about your boat? Talk to us. We can probably help. We'll go out on your boat with you and provide coaching and tips. There are two steps to comfort with handling your boat. First, take a seminar to learn how the boat behaves and how to get it to do what you want it to do. Second, get out on the boat and try it.

Let's talk about electronics...these gadgets are marvelous but appear complicated and intimidating. Don't fret. We'll come to your boat and help show you how to do what you want. Most of these gadgets do far more than you will ever want. That adds to the complexity of the menus and controls. There are some basic functions that you should be able to perform and they are not that difficult to learn. So give us a call. There is no cost to members to have us come aboard with you.

Meanwhile, we are offering a host of seminars for the remainder of the Spring and Summer to help with explaining electronics, boat handling, anchoring, and a host of related topics. We're also offering optional on-water training sandwiched between two sessions of the boat handling seminar

We will continue our live, online, virtual sessions interspersed with selected face-to-face meetings for hands-on training.

On April 9th, we had our change of watch, a fine dinner, and an engaging talk about steam ships and their whistles. Did you know that the Steamship Authority is using whistles rescued from retired steam-powered ships on their current fleet? John Rossi continues as your Commander, Dick Moore as your education officer, and Karen Hong as your Secretary. We have a great and dedicated crew.

Sign-up for some of our activities and let's get together to prepare for boating.

Best regards,

Bob Sweet

EDUCATION REPORT
APRIL 2022

ABC classes

Our first ABC class will be in March 2022. We will offer a total of 8 ABC classes, one per month through October 2022.

April		6 students	Bob Sweet / Dick Moore
Thursdays	7; 14; 21; 28	exam Sunday May 1	
May			Bob Sweet / Dick Moore
Thursdays	5; 12; 19; 26	exam Sunday May 29	
June			Bob Sweet / Dick Moore
Thursdays	2; 9; 16; 23	exam Sunday June 26	
July	5; 6; 7; 8	exam Sunday July 10	Bob Sweet / Dick Moore
August	1; 2; 4; 5	exam Sunday Aug. 7	Bob Sweet / Dick Moore

Seminars

Bob Sweet / Dick Moore

Our 2022 Seminar Series will begin on March 7. As we did in 2021 these will all be presented using a live virtual format which allows for the participants to ask questions and discuss the topics with the presenters. Join us!! The great thing about seminars is that you learn a lot and there is no homework or exam!!

Marine Electrical Systems

7 students

Dick Moore

This is the first of three USPS courses on boat electrical and electronic systems and covers the wiring of your boat and its systems. Exam in progress

Engine Maintenance

7 students

Dick Moore

CONGRATULATIONS! To the following members who successfully completed the Engine Maintenance course: Steve Abdow; John Eccleston; Josef Kellindorfer; Louis Kerr; Wayne Sampson; Cathy Sampson; James White

Coastal Navigation (P + AP) 4 students Bob Sweet / Dick Moore

We've combined the two USPS courses Piloting and Advanced Piloting into one complete Coastal Navigation program. You learn how to effectively use charts, GPS, and a chart plotter to safely plan and navigate, how to check your navigation, and what to do if there is a problem.

The students have completed both the Piloting and the Advanced Piloting parts of the course. They are working on the Advanced Piloting exam.

Our 2022 offerings are all planned using a live "virtual" presentation followed by individual in depth sessions with each student as necessary. We are striving to bring our members and the boating public high quality, comprehensive, boating education opportunities. Look at our schedule of classes and seminars and join us....learn something.....have fun..... and have some person to person interaction, even though in a virtual format.

Respectfully submitted,

Richard Moore SN IN
Education officer

IN MEMORIUM

Tom Begley, a member of our sister squadron, Cape Cod, succumbed to cancer in April. Tom was very active working with the District as well as Buzzards Bay and will be dearly missed. He and his wife, Connie, were frequent attendees at our squadron activities.

His memorial service was held on April 30th in Chatham and attended by many USPS members to honor his life and contributions.

Connie and Tom with granddaughters Lucy Rose Bloom, perched on grandfather's shoulders, and Virginia Rose Ku Begley. (July 2019)

Building Skills for Boating

Bob Sweet

There are two main areas in which local boaters need to be skilled – boat handling and navigating. Fortunately, BBSPS offers lots of programs in both areas.

Take boat handling. A boat behaves differently from a car, so handling one is not necessarily intuitive for most of us. Not knowing causes stress, and that can lead to panic instead of thoughtful actions. The greatest degree of stress seems to occur around the dock or other boats in close quarters.

Actually, handling a boat in many ways is easier than a car. For example, take parallel parking. Most of us struggle a bit to put the car in a tight space between two other cars. As it turns out, those awkward things a boat does, like sliding in water, actually can work in your favor. This assumes you know how to harness the boat's reactions.

As summer approaches, we are offering a host of boat handling seminars. These two-evening, live, on-line seminars explain how a boat behaves and how to get it to do what you want it to do. Two of those seminar sessions sandwich optional on-water training. Whether you take the on-water training or not, it is essential to practice what you have learned on the water. You can place a buoy in the water to simulate a dock and practice where nobody can bother, or watch, you.

The other topic of interest in our area is navigation. Since we are coastal and are blessed with all sorts of obstacles, it is essential that you know how to safely get around without hitting any charted objects. Charts are essential and you know how to interpret what they tell you.

We all use GPS today. Why not, it works! GPS tells you where you are – all the time. But, GPS does not know what is there. That's what the chart is for. A chartplotter helps since it places you at your present location on a chart. But, you still need to decide what paths to take as there are no roads printed on the chart. Again, skills are developed by actually using what you have learned.

A large part of navigation today is using electronics including chartplotters, radar, sounders or sonar, radios, and AIS. These are devices to help keep you safe, but you still need to spend most of your time looking out for other boats and other non-charted distractions.

BBSPS has some skilled and experienced boaters who would welcome the opportunity to help fellow members with their boating, be it boat handling, navigating or using your electronics. Don't be afraid to ask for assistance. We're here!
