**2023 WINTER COURSES  
STARTING EARLY MARCH**

**Sign Up NOW!**  
**so we can order course materials**

**COASTAL NAVIGATION**  
**Piloting plus Advanced Piloting**  
**Saturdays 9:00 – 12:00**  
**March 4; 11; 18; 25 Piloting**  
**April 1; 8; 15; 22; 29 MAY 6 Advanced Piloting**

**MARINE ELECTRICAL SYSTEMS**  
**how your boat is wired and what systems it has**  
**Wednesdays 6:30 – 9:00**  
**March 1; 8; 15; 22; 29 April 5; 12; 19**

**PRE REGISTRATION IS REQUIRED**

**TO REGISTER: Send a completed registration form along with a check made payable to “Buzzards Bay Sail & Power Squadron” to:  
Richard Moore PO Box 1685 Sagamore Beach, MA 02562-1685  
Email: [chmbrrck@live.com](mailto:chmbrrck@live.com) Telephone: 508-888-8238**

**BUZZARDS BAY SAIL AND POWER SQUADRON**  
*presents*

**COASTAL NAVIGATION COURSE**  
**2023**

Piloting and Advanced Piloting are the United States Power Squadrons courses providing you with skills needed to safely navigate coastal and inland waters.

Since most boaters use GPS, these courses provide you with what you need to successfully use GPS or a chartplotter to plan and navigate. You'll also learn how to check your navigation, and what to do if the GPS becomes faulty.

By merging the two courses, we can substantially reduce the overall class time. If you have not taken Piloting or wish to review the material take the initial sessions and be up to speed for Advanced Piloting.

<b>WHEN:</b>	<b>Saturdays</b>	<b>9:00AM – 12:00 PM</b>
	<b>March 4; 11; 18; 25</b>	<b>Piloting</b>
	<b>April 1; 8; 15; 22; 29</b>	<b>Advanced Piloting</b>
	<b>May 6; 13 (if needed)</b>	<b>Advanced Piloting</b>

*Notes:*

*We will use 2 methods for class presentations: live interactive ZOOM classes as well as in person classes. Depending on the material being presented and the student's needs we will use both these methods. We will always make sure the students fully understand the material through in person classes and if necessary individually scheduled in person discussion/help during the week following the presentation.*

*The longer Saturday presentations and combination of P and AP shortens the overall duration of the course.*

<b>COST:</b>	<b>If you have NOT taken Piloting</b>	<b>\$165</b>
	<i>Includes: USPS course plotter / ultra light dividers</i>	
	<i>AP student manual / Weekend Navigator</i>	
	<b>If you have recently taken Piloting</b>	<b>\$90</b>
	<i>(have "The Weekend Navigator", dividers, and plotter)</i>	
	<i>Includes: AP student manual</i>	
	<b>Non USPS member add \$100</b>	

**PRE-REGISTRATION IS REQUIRED BEFORE FEB 12**  
**SO WE CAN ORDER COURSE MATERIALS**

**TO REGISTER:** Send a completed registration form along with a check made payable to "Buzzards Bay Sail & Power Squadron" to:

Richard Moore PO Box 1685 Sagamore Beach, MA 02562-1685

Email: [chmbrrck@live.com](mailto:chmbrrck@live.com) Telephone: 508-888-8238

**BUZZARDS BAY SAIL AND POWER SQUADRON**  
*presents*

**AMERICA'S BOATING COURSE**  
**2023 SCHEDULE**

America's Boating Course (ABC) is recognized as one of the very best ways to prepare yourself for boating.

ABC meets NASBLA certification requirements, is recognized by the U.S. Coast Guard, and **meets MA requirements for boat operation by 12-15 year-old boaters.**

ABC covers the basics of operating a boat safely, including rules of the road, aids to navigation, required equipment, and boat handling techniques.

**Each class is a live, interactive, virtual presentation using ZOOM on 4 weekday evenings followed by a "drive in" in-person, proctored exam given the Sunday morning following the last class.**

Month	Classes	Time	Exam
<b>MARCH</b>	<b>9; 16; 23; 30</b>	<b>6:30 – 9:00 PM</b>	<b>April 2</b>
<b>APRIL</b>	<b>6; 13; 20; 27</b>	<b>6:30 – 9:00 PM</b>	<b>April 30</b>
<b>MAY</b>	<b>4; 11; 18; 25</b>	<b>6:30 – 9:00 PM</b>	<b>May 28</b>
<b>JUNE</b>	<b>1; 8; 15; 22</b>	<b>6:30 – 9:00 PM</b>	<b>June 25</b>
<b>JUNE</b>	<b>26; 27; 28; 29</b>	<b>6:30 – 9:00 PM</b>	<b>July 2</b>
<b>SEP 21; 28</b>	<b>OCT 5; 12</b>	<b>6:30 – 9:00 PM</b>	<b>Oct 15</b>

**ATTENDANCE ALL 4 DAYS PLUS THE EXAM IS REQUIRED**

**COST: \$65 per student**

You will receive a copy of the USPS ABC book, a summary of MA boating laws, and a US Coast Guard safe boating guide prior to the class.

**PRE REGISTRATION IS REQUIRED**  
**A PRE COURSE ASSIGNMENT NEEDS TO BE COMPLETED**  
**WE MUST MEET BEFORE THE CLASS TO DISTRIBUTE COURSE MATERIALS**

**TO REGISTER:** Send a completed registration form\* along with a check made payable to "Buzzards Bay Sail & Power Squadron" to:  
Richard Moore PO Box 1685 Sagamore Beach, MA 02562-1685  
Email: [chmbrrck@live.com](mailto:chmbrrck@live.com) Telephone: 508-888-8238

\* *Registration form can be found on the web site [www.bbsps.org](http://www.bbsps.org)*

**BUZZARDS BAY SAIL AND POWER SQUADRON**  
*presents*

**MARINE ELECTRICAL SYSTEMS COURSE**  
**2023**

Marine Electrical Systems covers the practice of wiring your boat, including boat electrical wiring practices and diagrams, direct and alternating current power, galvanic and stray current corrosion, and lightning protection. Troubleshooting is emphasized throughout, so participants should feel comfortable performing wiring tasks after this course.

Your boat contains a LOT of wiring and many electrical systems. This course helps you feel comfortable and confident with these, their upkeep and use.  
**KNOWLEDGE is CONFIDENCE.**

**WHEN:**            **Wednesday**                            **6:30 – 9:00 PM**  
                         **MARCH 1; 8; 15; 22; 29**    **APRIL 5; 12; 19**

**WE WILL USE BOTH LIVE ON LINE PRESENTATIONS AND IN PERSON CLASSES FOR THIS COURSE**

**COST:**            **\$80 USPS member**            **\$180 non-member**

**PRE REGISTRATION PRIOR TO FEBRUARY 15 IS REQUIRED**

**TO REGISTER:** Send a completed registration form along with a check made payable to “Buzzards Bay Sail & Power Squadron” to:  
**Richard Moore PO Box 1685 Sagamore Beach, MA 02562-1685**  
**Email: [chmbrrck@live.com](mailto:chmbrrck@live.com)            Telephone: 508-888-8238**

**We will email you an on-line link just prior to the first session.**

## The View

The ground hog has spoken! But, spring will be upon us before too long. This is a good time to tune-up your boating skills, and Dick Moore has put together a great selection of courses and seminars.

We just put the wraps on Offshore Navigation (previously known as JN). It's a great course. Some take it to go the distance; others do so just to learn how to take and reduce sextant sights. Either way, it is a good skill to have. We will be offering the companion course this coming Fall, now called Celestial Navigation (previously known as Navigation).

We are working on setting up a dinner meeting along with our Change of Watch and an interesting speaker. Unfortunately, our regular place is in transition with a new owner. We will let you know as soon as we have found the right spot for us. Expect an event in late April or May.

Beginning in March, we have a host of courses and seminars, so check out the schedule and sign up for what you want. If you don't see something that you would like, let us know and we will consider adding it to the schedule.

Our district will be hosting a conference at the Fairfield Inn in New Bedford on March 25<sup>th</sup>. We will provide the schedule in next month's LOG.

Continue to stay warm, stay tuned and think about boating!

Best regards,

Bob Sweet

## EDUCATION REPORT JANUARY 2023

2022/2023

Celestial Navigation / Junior Navigation

Bob Sweet & Dick Moore

This is the first of a two part program of study in offshore navigation It is designed as a practical how to course. Subject matter included: basic concepts of celestial navigation; how to use the mariner's sextant to take sights of the sun; the importance and techniques of accurate time determination; use of the nautical almanac; how to reduce sights to establish lines of position; and the use of special charts, plotting sheets and other navigational data for offshore positioning and passage planning. Two students took the JN take home exam and are awaiting their results.

2023

ABC Classes

Bob Sweet & Dick Moore

March	9; 16; 23; 30	6:30 – 9:00 PM	exam April 2
April	6; 13; 20; 27	6:30 – 9:00 PM	exam April 30
May	4; 11; 18; 25	6:30 – 9:00 PM	exam May 28
June	1; 8; 15; 22	6:30 – 9:00 PM	exam June 25
June	26; 27; 28; 29	6:30 – 9:00 PM	exam July 2
September	21; 28	October 5; 12	6:30 – 9:00 PM exam October 15

Seminars

Bob Sweet & Dick Moore

Tuesday evenings 6:30 – 9:00 PM			
March	7; 14; 28	April	4; 11; 18; 25
May	2; 9; 16; 30	June	6; 13; 20
July	11; 25	August	1; 8; 15; 22; 29
September	5; 12		

Comprehensive On Water Training

Bob Sweet / Dick Moore

May 2 – 15	Level 1	Basic Powerboat Handling
May 16 – 30	Level 2	Advanced Powerboat Handling
June 6 – 19	Level 1	Basic Powerboat Handling
June 21 – 29	Level 2	Advanced Powerboat Handling

Advanced Grade Courses

Coastal Navigation (Piloting & Advanced Piloting)

Bob Sweet & Dick Moore

Lectures are live, virtual on line presentations. Plotting and positioning are in person hands on training.

Saturdays	9:00 AM – 12:00 PM		
March	4; 11; 18; 25	April	1; 8; 15; 22; 29
May	6; 13 (if needed)		

Boat Handling / Seamanship

Dick Moore

This is the next course after the ABC boating class and treats similar subjects but in greater depth. It is the first in the USPS advanced grades sequence of courses.

Wednesday evenings	6:30-9:00 PM		
September	13; 20; 27	October	4; 11; 18; 25
		November	1

Offshore Navigation (N)

Bob Sweet & Dick Moore

This is the culmination of USPS navigation study and companion to Celestial Navigation (JN).

Fall	introduction and Sights	sight Reduction	sight Folder
Fall / Winter	electronic navigation	work of the navigator	cruise

Elective Courses

Marine Electrical Systems

Dick Moore

This course covers the practices of wiring your boat, including both DC and AC power systems. Live, virtual lectures plus in person hands on sessions.

Wednesday evenings 6:30-9:00 PM

March 1; 8; 15; 22; 29 April 5; 12; 19

Engine Maintenance

Dick Moore

This course stresses the diagnosis of modern systems, while teaching the basics of engine layout and operation and covers repairs a person can reasonably perform.

Lectures are live, in person virtual presentations with separate in person sessions.

Tuesday evenings 6:30 – 9:00 PM

September 26 October 3; 10; 17; 24; 31 November 5

Our course offerings are all planned using live “virtual” presentations with group in person sessions and individual in depth sessions with each student as necessary. We are striving to bring our members and the boating public high quality, comprehensive, boating education opportunities. Look at our schedule of classes and seminars and join us....learn something.....have fun..... and have some person to person interaction, either virtually or in person.

Respectfully submitted,

Richard Moore SN IN

Education officer

## Do you know how to use your Electronics on board?

### Bob Sweet

Electronics have vastly improved boating, especially GPS. Unfortunately, these gadgets can be confounding to use. The manufacturers write manuals that could substitute for puzzles rather than offering easily usable instructions.

GPS was the game-changer for navigation. The satellites provide a highly-accurate three-dimensional position. Today, most of us use a chartplotter which places our boat's position directly on a chart displayed on the screen. To be useful on a boat, these devices need to be waterproof and have displays bright enough to be seen in daylight.

To control the chartplotter we need buttons, but waterproof buttons are expensive. So, the manufacturers only use a few, if any. Finding the right button is key. Touchscreens have become popular and those units often have only virtual buttons that show up on the screen. Almost all of the functions on your chartplotter are programmed into the unit by the engineers that designed it. They had their own ideas of where to hide things.

This leads to multi-tier menus. Somewhere in there is the function that I want. How do I find it? Once I find it, how do I use it? If your chartplotter is mounted on your boat, you can't practice at home. So when do I get to learn how to use it? When you are on the boat, you want to be boating not learning to use the chartplotter. Adding to the confusion, each brand has a different layout and menu.

You can do your navigation planning at home, but how do you get it into the chartplotter? There is software you can use at home and simple ways to transfer what you planned to the chartplotter.

You can get a head start on your boating by taking our **Boating and Navigating with Electronics Seminar**. The virtual, live, online seminar walks you through the basic functions on your chartplotter and how to manage them. In most cases you can do planning at home or on your tablet and transfer your plans to the chartplotter. In that way you can spend most of your boating time actually boating. The next session is scheduled for Tuesday evening, March 14th.

In addition to the chartplotter, the other device I get lots of questions about is radar. Radar presents a useful display of what is around you above the surface of the water, but it is not intuitive. And, there are a bunch of controls. What am I seeing? How do I interpret what it is telling me? We also talk about that in the seminar.

We also have a companion two-part online seminar called **Basic Coastal Navigation** which is being offered on Tuesday evenings on April 18 and 25. This is basically a solid introduction to coastal navigation for new boaters and a refresher for those who have experience but want to better relate to their electronics.

As boating season approaches, we offer support to our members on their boats to help them with their electronics, as well as handling their boats. Be sure to ask.
