**BUZZARDS BAY SAIL AND POWER SQUADRON**  
*presents*

**AMERICA’S BOATING COURSE**  
**2023 SCHEDULE**

America’s Boating Course (ABC) is recognized as one of the very best ways to prepare yourself for boating.

ABC meets NASBLA certification requirements, is recognized by the U.S. Coast Guard, and **meets MA requirements for boat operation by 12-15 year-old boaters.**

ABC covers the basics of operating a boat safely, including rules of the road, aids to navigation, required equipment, and boat handling techniques.

**Each class is a live, interactive, virtual presentation using ZOOM on 4 weekday evenings followed by a “drive in” in-person, proctored exam given the Sunday morning following the last class.**

Month	Classes	Time	Exam
MAY	4; 11; 18; 25	6:30 – 9:00 PM	May 28
JUNE	1; 8; 15; 22	6:30 – 9:00 PM	June 25
JUNE	26; 27; 28; 29	6:30 – 9:00 PM	July 2
SEP 21; 28	OCT 5; 12	6:30 – 9:00 PM	Oct 15

**ATTENDANCE ALL 4 DAYS PLUS THE EXAM IS REQUIRED**

**COST: \$65 per student**

You will receive a copy of the USPS ABC book, a summary of MA boating laws, and a US Coast Guard safe boating guide prior to the class.

**PRE REGISTRATION IS REQUIRED**  
**A PRE COURSE ASSIGNMENT NEEDS TO BE COMPLETED**  
**WE MUST MEET BEFORE THE CLASS TO DISTRIBUTE COURSE MATERIALS**

**TO REGISTER:** Send a completed registration form\* along with a check made payable to “Buzzards Bay Sail & Power Squadron” to:  
Richard Moore PO Box 1685 Sagamore Beach, MA 02562-1685  
Email: [chmbrreck@live.com](mailto:chmbrreck@live.com) Telephone: 508-888-8238

**USPS Founders' Day Celebration  
Southeastern New England / District 34**

**Eat, drink, laugh and learn in beautiful Newport, RI  
Sunday May 21 from 9:30am to 2:00pm**

A day dedicated to fun and friendship for all USPS members and their friends. And this year, you can join many other boating enthusiasts as we watch the start of Leg 5 of **The Ocean Race**, a 32,000 nautical mile competitive sail from Alicante, Spain to Genova, Italy, visiting nine iconic international cities over a six-month period.

Our morning agenda will feature a presentation from **Whale and Dolphin Conservation USA**. Members of **WDC** will present an instructive and fascinating discussion on boating safety around whales and how to interact safely with marine mammals and other water species.

After brunch, we can head down to Thames Street to watch **The Ocean Race** parade or stay at the historical building watching America's Boating Channel videos before either driving to **Fort Adams State Park** at 2:00 to watch the start of the next leg in **The Ocean Race** or joining **Club** members as we take a tour of **The Newport Sailing Museum** at 365 Thames Street. Explore hands-on exhibits on **Wind and Water**, the **Legends of Sailing**, and learn about the making of a sailor and the building of teamwork. Discover what happens at the top of the sport when sailors perform at their highest level.

Afterwards, visit mansions, museums and shops, enjoy the Newport Oyster and Chowder festival, or just stroll on the waterfront, making very pleasant memories for all.

**Newport Elks Lodge  
141 Pelham Street  
Newport, RI  
Sunday May 21**

**9:30 Gather for coffee and friendship  
10:00 Welcome & presentation by Whale and Dolphin Conservation USA  
11:15 Catered Brunch  
12:30 Ocean Race Parade  
2:00 Start of Leg 5 at Fort Adams State Park or Tour of the Newport Sailing Museum**

**Limited seating! Reserve early for only \$37!  
Please make your reservations by May 14, 2023!**

**For registration and online payments go to <https://abc-d34.org>  
For additional information and payments by check, contact D/C Valentina Bizunok by email at [v6174175009@gmail.com](mailto:v6174175009@gmail.com) by May 14, 2023.**

**Why we celebrate Founders' Day**

The United States Power Squadron (USPS) was founded 109 years ago in 1914 by Rear Commodore John Upton of the Boston Yacht Club, Charles F. Chapman, author of the boatmen's bible *Piloting, Seamanship and Small Boat Handling*, and others to formalize the education and training of civilian boaters and it grew into the nations' foremost recreational boating organization.

Learn more about USPS history and its member volunteer service and education training of thousands of service members during World Wars I and II. Visit <https://www.usps.org/national/historian/uspshistory.html>

William Kelly

508-314-4692

bikelly@verizon.net

We just concluded our annual Change of Watch at the Sagamore Inn. John Rossi, Dick Moore, and Karen Hong continue to serve as commander, education officer and secretary respectively. Bill Kelly has joined the bridge as Treasurer. Following the COW, we had an excellent dinner and a presentation by noted author Michel Tougias who talked about how individuals survived extreme conditions.

We're in the final stages of **Marine Electrical Systems** and **Advanced Piloting** courses. Our seminar program continues with sessions on **Basic Powerboat Handling, Advanced Powerboat Handling, Advanced Anchoring,** and **Trailing Your Boat** scheduled for May. And, we are offering the **America's Boating Course** in May and June.

Now that we are putting boats in the water remember that we offer to help our members figure out how to use their electronics and other gear on board. We would be pleased to spend time with you on your boat showing you how to use your equipment. All you need to do is ask.

We also are offering the USPS Jump Start program for the public as well as members. Under this program, we go on the owner's boat and help them with boat handling. They first attend a seminar, get a vessel safety check, and schedule the on-water time with one of us to coach them on board. USPS insurance covers the activity. Let us know if you know of anyone who would be interested.

This is the time of year that everyone gets their boats ready for the water. Remember to ask for a Vessel Safety Check – it's free! Contact John Rossi to schedule.

Happy boating season!

Best regards,

Bob Sweet

## EDUCATION REPORT JANUARY 2023

2023

ABC Classes Bob Sweet & Dick Moore

May	4; 11; 18; 25	6:30 – 9:00 PM	exam May 28
June	1; 8; 15; 22	6:30 – 9:00 PM	exam June 25
June	26; 27; 28; 29	6:30 – 9:00 PM	exam July 2
September	21; 28	October 5; 12	6:30 – 9:00 PM exam October 15

Seminars Bob Sweet & Dick Moore

Tuesday evenings 6:30 – 9:00 PM			
May	9; 16; 30	June	6; 13; 20
July	11; 25	August	1; 8; 15; 22; 29
September	5; 12		

Comprehensive On Water Training Bob Sweet / Dick Moore

May 2 – 15	Level 1	Basic Powerboat Handling
May 16 – 30	Level 2	Advanced Powerboat Handling
June 6 – 19	Level 1	Basic Powerboat Handling
June 21 – 29	Level 2	Advanced Powerboat Handling

Spring Courses

Coastal Navigation (Piloting & Advanced Piloting) Bob Sweet & Dick Moore

Lectures are live, virtual on line presentations. Plotting and positioning are in person hands on training. 3 students. The students have completed their Piloting exam and they are being sent to USPS for grading.

Saturdays 9:00 AM – 12:00 PM			
March	4; 11; 18; 25	April	1; 8; 15; 22; 29
May	6; 13 (if needed)		

Marine Electrical Systems Dick Moore

This course covers the practices of wiring your boat, including both DC and AC power systems. Live, virtual lectures plus in person hands on sessions. 4 students. The students have completed their exams and they are being sent to USPS for grading.

Fall Courses

Boat Handling / Seamanship Dick Moore

This is the next course after the ABC boating class and treats similar subjects but in greater depth. It is the first in the USPS advanced grades sequence of courses.

Wednesday evenings 6:30 - 9:00 PM			
September	13; 20; 27	October	4; 11; 18; 25
			November 1

Offshore Navigation (N) Bob Sweet & Dick Moore

This is the culmination of USPS navigation study and companion to Celestial Navigation (JN).

Fall	introduction and Sights	sight Reduction	sight Folder
Fall / Winter	electronic navigation	work of the navigator	cruise

Engine Maintenance

Dick Moore

This course stresses the diagnosis of modern systems, while teaching the basics of engine layout and operation and covers repairs a person can reasonably perform.

Lectures are live, in person virtual presentations with separate in person sessions.

Tuesday evenings 6:30 – 9:00 PM

September 26 October 3; 10; 17; 24; 31 November 5

Our course offerings are all planned using live “virtual” presentations with group in person sessions and individual in depth sessions with each student as necessary. We are striving to bring our members and the boating public high quality, comprehensive, boating education opportunities. Look at our schedule of classes and seminars and join us....learn something.....have fun..... and have some person to person interaction, either virtually or in person.

Respectfully submitted,

Richard Moore SN IN  
Education officer

## Great Navigation Resource for Tablets & Phones

### Bob Sweet

I am a strong believer in using a chartplotter for navigation with paper charts nearby. The chartplotter gives you the close-up view along with your active course line and present position. The paper chart gives you the big picture and serves as the ultimate backup

That said, chartplotters are somewhat awkward to use for planning your trip. Wouldn't it be great to be able to plan on something like a computer and transfer your waypoints and routes to the chartplotter? I'm asked about that all the time in seminars. Actually, it is easy. Read on!

If you use navigation software, you can download electronic charts from NOAA directly for free. These charts are regularly updated, so they provide information that is much fresher than your chartplotter will show. I like a program called Coastal Explorer by Rosepoint Navigation. This is \$400 software, but very capable. As USPS members you can get a 25% discount directly from Rosepoint. For those more budget conscious, there is an open source program called OpenCPN which is free. While not as capable as Coastal Explorer, it also uses the free NOAA charts. While Coastal Explorer automatically will download the latest chart files directly from NOAA, OpenCPN requires you to do it.

But, there is an alternative, or perhaps a supplement. That is the Navionics App. This app requires a \$25 per year subscription but it regularly updates the charts. It will work on both your phone and tablet. The Navionics charts are a solid cut above those that you get from NOAA. They also have substantial bathymetric charts with far greater detail than the NOAA ENC's. They also have a crowdsources resource taking the sounding data from users and incorporating it into depth data. The app also offers to supplement the presentation with satellite images or topo charts. The other great feature is depth contours for many lakes and ponds which are not covered by NOAA.

So how do it use it? Coastal Explorer and Open CPN allow you to export your waypoints and routes using a GPX file. You can copy the file to a microSD card and move it to your chartplotter where you can import the file into the unit for use. With the Navionics app, you can email your GPX file to your computer, or wirelessly connect with your chartplotter directly. These tools are perfect for reviewing your cruise and making on-the-move modifications along the way. The Navionics app also has an automatic route planning feature. Enter your starting and ending points and push a button. This can be exported as a GPX file. Just be sure that the machine has done a good job before following it in areas with tight passages.

The tools are getting better all the time. Just don't forget the basics.

A handwritten signature in black ink that reads "Bob". The letters are cursive and connected, with a stylized flourish at the end of the word.

## Coast Guard discusses search and rescue during National Safe Boating Week

The USCG says it's important to make a float plan so that someone on land knows where you'll be in case an incident does arise, and crews can reach you more quickly.

Author: Sean Stackhouse (NEWS CENTER Maine)  
Published: 6:34 PM EDT May 24, 2022  
Updated: 6:34 PM EDT May 24, 2022

**SOUTH PORTLAND, Maine** — Memorial Day weekend is right around the corner, and authorities in Maine are preparing for the busy boating season.

"Practicing beforehand is going to make everything that much easier, that much smoother. It comes second nature to us," David LeTarte with the U.S. Coast Guard said.

On Tuesday, members of the U.S. Coast Guard Sector Northern New England were taking part in man overboard and search and rescue exercises to ensure their crews were ready for the summer.

"It really trains and hones in the coxswain's ability to maneuver that very large vessel alongside a person in the water, and then the crew members ability to give distances and then physically bring them on board and medically assess them," Stuart Bangs, executive petty officer of the Coast Guard station in South Portland, said.

Members of the USCG Sector Northern New England recommend always making a float plan, which is telling someone where you're going so that in the case of an emergency, the Coast Guard can get to you quickly.

"File a float plan with a loved one. That's simply, 'Hey, I'm going out to this location. Should be back at this time. This is my intended track. Here's who I have onboard. Here's my cell phone number.' So, if you are overdue, they can reach out to us with that information, and that helps narrow our search for you," Bangs said.

Among safety tips like not boating under the influence and wearing a lifejacket, USCG staff also recommend getting a vessel safety check. In a vessel safety check, a USCG or Coast Guard Auxiliary member will come to you and inspect your boat to ensure it's ready for the season. You can request a vessel safety check on the USCG's website and app. It is free.

May 21-27 marks National Safe Boating Week, and it's organized by the nonprofit National Safe Boating Council, which recommends these tips for boaters:

- **Take a boating safety course.** Gain valuable knowledge and on-water experience in a boating safety course with many options for novice to experienced boaters.
- **Check equipment.** Schedule a free vessel safety check with local U.S. Coast Guard Auxiliary or U.S. Power Squadrons to ensure all essential equipment is present, working, and in good condition.
- **Make a float plan.** Always let someone on shore know the trip itinerary, including operator and passenger information, boat type and registration, and communication equipment on board.
- **Wear a life jacket.** Make sure everyone wears a life jacket – every time. A stowed life jacket is no use in an emergency.
- **Use an engine cut-off device – it's the law.** An engine cut-off device, or engine cut-off switch, is a proven safety device to stop the boat's engine should the operator unexpectedly fall overboard.
- **Watch the weather.** Always check the forecast before departing on the water and frequently during the excursion.
- **Know what's going on around you at all times.** Nearly a quarter of all reported boating accidents in 2020 were caused by operator inattention or improper lookout.
- **Know where you're going, and travel at safe speeds.** Be familiar with the area, local boating speed zones, and always travel at a safe speed.
- **Never boat under the influence.** A BUI is involved in one-third of all recreational boating fatalities. Always designate a sober skipper.
- **Keep in touch.** Have more than one communication device that works when wet. VHF radios, emergency locator beacons, satellite phones, and cell phones can all be essential devices in an emergency.

## Coast Guard suspends search for missing boater after 3 die

New Hampshire Public Radio | By Associated Press

Published April 21, 2023 at 3:19 PM EDT

*Coast Guard / AP*

The U.S. Coast Guard found an overturned boat about 7 miles northeast of Cape Ann earlier on April 20, 2023, officials said.

The U.S. Coast Guard suspended the search for a fisherman on Friday, a day the small boat he had been in was found capsized off the Massachusetts coast and the other three men who had been onboard were found unresponsive and later pronounced dead.

The Coast Guard searched nearly 1,600 square miles (4,144 square kilometers) of ocean for the boat and its four passengers, who were reported missing just before midnight Wednesday. It found the boat about 7 miles (11 kilometers) northeast of Cape Ann, Massachusetts.

On Friday, it suspended the search for the last of the missing men, Bin "Michael" Cai.

On Thursday search crews found 38-year-old Jia Fu Zheng and 43-year-old Daxiao Lin, both of Quincy, Massachusetts, and 42-year-old Jaime Liu, of Litchfield, New Hampshire. They were unresponsive when found and were pronounced dead after they were brought ashore in Gloucester, Massachusetts, officials said.

The Coast Guard did not provide an age or hometown for Cai.

The four left the harbor in Hampton, New Hampshire, on Wednesday morning intending to fish in an area called Jeffreys Ledge, about 50 miles (80 kilometers) offshore. They were due back by sunset.

A relative of one of the men called to report them missing at about 11:45 p.m. Wednesday.

Coast Guard Lt. Brandon Newman told Seacoastonline.com that there were 2-foot (0.6-meter) waves on Wednesday. The air temperature was 42 degrees (5.6 degrees Celsius) and the water temperature was 46 degrees (7.8 degrees Celsius).

The Coast Guard searched an area based on the last known position of one of the fishermen's cellphones and their intention to fish on Jeffreys Ledge.

The Coast Guard will conduct an investigation.

Capt. Amy Florentino, the commander of Coast Guard Sector Northern New England, said the decision to end a search was a difficult one.

""The water temperature in New England at this time of the year dramatically reduces the survivability rate for anyone that enters the water, and we urge all boaters to keep the air and water temperatures in mind when planning their voyages this spring," Florentino said in a statement.
